KINDERGARTEN PROVISION

Our prime areas of focus are communication and language, personal, social and emotional development and physical development.

These prime areas are strengthened and applied through: Literacy, Mathematics, Science, Understanding the World, and Expressive Arts and Design.

- Teacher to student interactions are key for expanding and deepening learning.
- Teachers must develop learners' voice, autonomy, and independence for learning.
- Reggio Emilia-inspired play-based approach to learning for kindergarten fosters holistic development, supporting young learners as they develop, academically, socially and emotionally.
- We offer Arabic and Islamic Studies from KG1.

"All young children can learn and all children learn differently."

PRIMARY & MIDDLE SCHOOL

- Our teachers and leaders apply evidence-based teaching strategies with a focus on student achievement. Our teachers implement data-driven instructional practices to meet the diverse needs of all learners.
- Teachers develop learners literacy skills by providing them with opportunities to read, write, speak, and listen every day. We engage learners in language-rich activities with a focus on the development of letter recognition, encoding, decoding and phonological awareness. Instruction focuses on comprehension, accuracy, fluency, and expanded vocabulary.
- Introduction of math and numbers through the manipulation of physical objects to build a foundation for learning addition and subtraction.
- Science inquiry learning and development through observation and the use of the Scientific method Integration of STEAM to enhance the viable curriculum.
