MS. BERFIN'S BRIGHT CLASS!

WEEKS 8 & 9 OCTOBER 2021

BELIEVE YOU CAN AND YOU WILL!

Dear Parents,

I hope you are all well and have had a wonderful break! I cannot wait to share with you our plans for the next two weeks in KG2 B! We will be having an amazing time as always growing and learning! We will read different stories to ask and answer questions and build our vocabulary. We will also be learning how to read a book by holding the book, turning the pages and identifying the front and back correctly. We will continue to review our letters and sing our phonics daily. We will also make sure we are practicing our writing skills as much as possible! Every day we will trace our names until we are familiar with the letters in our name, so we can start copying our names independently! In science we will continue to learn about our five senses. Each lesson we will focus on a chosen sense. In math, we will be comparing numbers between 1 and 10 presented as written numerals and will learn to identify and draw the shape diamond!

I believe it is so important to use activities that makes learning engaging and fun as this motivates students to be more willing to participate and task risks. Having fun while learning helps to retain information better because the process is much more enjoyable and memorable! Therefore, I will ensure my wonderful students engage with a number of fun and creative activities!
